SUMMARY

Senior Full Stack .NET Developer with 10+ years of experience building scalable SaaS and enterprise applications using **ASP.NET Core Web API, React.js, and cloud platforms (AWS & Azure)**. Strong expertise in designing RESTful APIs, microservices architecture, and modern frontend applications. Proven ability to deliver high-performance, secure, and maintainable systems in Agile, distributed teams.

SKILLS

Frontend:

React.js, TypeScript, JavaScript (ES6+), Vue.js, jQuery, HTML5, CSS3

Backend:

ASP.NET Core, Web API, Entity Framework Core, Dapper, Node.js

Cloud & DevOps:

AWS (EC2, S3), Azure, Docker, CI/CD Pipelines, Bitbucket, Jira

Databases:

SQL Server, MySQL, MongoDB, PostgreSQL, Cosmos DB

Other:

REST APIs, Microservices, Agile/Scrum, SaaS Architecture

EXPERIENCE

Senior Full Stack Developer

TheDNA Company(USA – Remote) Aug 2023 – Present

- Designed and developed scalable web applications using **ASP.NET Core Web API and React.js**, enhancing system performance and usability
- Built and maintained RESTful APIs to support modern frontend applications and third-party integrations
- Deployed and managed applications on **AWS and Azure**, optimizing cloud infrastructure and CI/CD workflows
- Collaborated in Agile/Scrum environment with cross-functional teams to deliver high-quality features on schedule
- Worked with technologies including **.NET Core, React.js, TypeScript, Node.js, MySQL, and Cosmos DB**

Tech Stack: ASP.NET Core, Web API, React.js, TypeScript, AWS, Azure, MySQL

Full Stack .NET Developer

Digit Sense (Hong Kong – Remote) Jan 2022 – Aug 2023

- Developed enterprise ERP applications using **React.js, TypeScript, ASP.NET Core, and MongoDB**
- Contributed to system architecture design for scalable, multi-tenant SaaS platforms
- Built reusable APIs consumable across multiple technologies (.NET, JavaScript, Python)
- Improved application performance and maintainability through optimized backend services

Tech Stack: ASP.NET Core, React.js, TypeScript, MongoDB, Azure

Senior .NET Developer

FDesign (UK – Remote) Jan 2021 – Mar 2022

- Developed and maintained web applications using **ASP.NET Core Web API and Vue.js**
- Built backend APIs for mobile and frontend applications
- Delivered end-to-end solutions including system design, development, and deployment
- Worked on multi-tenant applications with scalable architecture

Tech Stack: ASP.NET Core, Web API, Vue.js, SQL Server

Senior .NET Developer

TechSquad Solutions (Pakistan) Feb 2019 – Jan 2021

- Developed enterprise applications using **ASP.NET Core with N-tier architecture**
- Built accounting and VAT submission systems for UK-based clients (HMRC compliance)
- Collaborated in Agile teams to deliver high-quality software solutions
- Integrated frontend frameworks including Angular and Vue.js

Tech Stack: ASP.NET Core, Angular, Vue.js, SQL Server

.NET Developer

Creamerz Soft (Pakistan) Feb 2017 – Feb 2019

- Developed web-based applications including POS and document management systems
- Handled full software lifecycle: requirements, development, testing, and deployment
- Built complex database queries and optimized application performance

Tech Stack: ASP.NET MVC, jQuery, SQL Server

PROJECTS

Medical Company Portal (Healthcare Platform)

System Links • 2023 – Present

- Developed a secure and scalable healthcare portal using **ASP.NET Core Web API and React.js**
- Designed and implemented RESTful APIs for efficient data management and frontend integration
- Implemented role-based access control for secure handling of sensitive medical data
- Deployed and managed application on **AWS (EC2, S3)** and Azure
- Optimized performance by improving API response time and frontend rendering

Tech Stack: ASP.NET Core, Web API, React.js, TypeScript, AWS (EC2, S3), Azure, MySQL

Jengdiing ERP (Multi-Tenant SaaS Platform)

Digit Sense • 2022 – 2023

- Developed a multi-tenant ERP system using **ASP.NET Core and React.js**
- Built scalable backend APIs and reusable frontend components
- Implemented tenant-based data isolation and system configuration
- Continuously enhanced system features and performance

Tech Stack: ASP.NET Core, React.js, TypeScript, MySQL

Online VAT Submission System (OVSS)

TechSquad Solutions • 2019 – 2021

- Built a cloud-based system for UK councils to submit VAT to HMRC
- Implemented multi-tenant architecture and approval workflows
- Integrated Excel-based data processing and submission features
- Improved digital tax submission efficiency

Tech Stack: ASP.NET Core, Web API, SQL Server

Property Management System

FDesign • 2021 – 2022

- Developed a multi-tenant property management platform
- Built backend APIs and frontend modules for managing tenants and properties
- Designed scalable architecture for handling multiple clients

Tech Stack: ASP.NET Core, Web API, Vue.js, SQL Server

Access Skills CRM

FDesign • 2020 – 2022

- Developed CRM system for a UK-based organization
- Built modules for managing business operations and customer data
- Contributed to system design and feature development

Tech Stack: ASP.NET Core, SQL Server

EDUCATION

BSc Software Engineering

U E T Peshawar • P e s h a w a r • 2 0 1 7 • 3 . 1
